/// Customer Insights Agent

Ask your data. Get answers. Instantly.

No Code. No dashboards. No technical expertise. Just Agentic AI.

What if anyone on your team could ask Complex Customer Data questions—and get real insights in seconds?

Complex data related answers at the click of a button

Enter ↵

Natural Language Prompting

Teams move from waiting days for answers to validating ideas in minutes

No longer constrained by dependency on Data Teams. Make decisions on the go

Decisions are informed by real time data rather than delayed reports

Syntasa makes it possible
with its Customer Insights Agent

How it works

Converts Plain English into SQL Queries

Runs in your own Cloud Environment

Less Dependency on Data Analysts & dashboards

Returns instant insights to inform next best action

Not convinced yet? Test our agent in a pilot stage to ensure usability and confidence before wider adoption.
